**legrand<sup>®</sup>**

LIVE THE ADVANTAGE

## with you at **THE HEART**

At Legrand when we dream up something new, guess who drives us to dream bigger? When our engineers do umpteen extra-trials, wonder who do they do it for? When our craftsmen happily work overtime, who secretly motivates them?

Every piece of technology, every byte of data and every stroke of design is created by us, with you at the heart.

The state-of-the-art Myrius NextGen range has been inspired by the lives you lead. Inspired by what the little ones love most or what grandpas and grannies adore. Inspired by what husbands and wives love or sometimes even fight over.

When such inspirations meet Legrand's famed 'Designing' philosophy, what you get is the stunning Myrius NextGen range.

# INSPIRED BY HUES & PATTERNS

We know just how much India loves its colours and motifs. Crafted by the latest In Mold Decoration (IMD) technology, our CE Certified plates come in myriad colours and unique patterned finishes. With unmatched consistency in quality and the finish of patterns, these modern, sleek and flat designs will add a touch of designer class to any room. So, be it an understated pattern or a bold, colourful look that becomes a showstopper - take your pick from 10 different finishes and live the advantage.

# INSPIRED BY YOUR HEALTH-FIRST MANTRA

You prioritize your family's health, hygiene and wellness more than anything else. Inspired, we've created anti-bacterial plates infused with silver ions, which do not let bacteria grow on the surface of switches and plates and accessories throughout its lifespan. One less reason to worry about germs being passed on at home. Live the advantage of a healthy home.

## CHARGING SOLUTIONS

## INSPIRED BY YOUR ALWAYS-ON LIFESTYLE

Different users have different requirements. Thankfully our range of Type A and Type C charging solutions ensures that whatever be your type, you'll never run out of charge! And we've been the first to introduce and follow IS standard and the mandatory CRS declaration as per BIS norms. So, live the advantage of so many options

**INSPIRED BY YOUR  
CLUTTER-FREE LIFE**

Induction charger\*

We all love a life devoid of clutter. A minimal, yet beautiful existence. Just like our induction charger. Forget using messy charging wires for your phone. Simply place it in the induction charger's slot or plug in with USB Port and voila – in no time at all, you have a fully charged phone, without the mess of untangling wires! Live the advantage of a tangle-free life.

\*Only charges compatible phones with induction receiver technology

**SMART  
CONVENIENCE**

Bluetooth Sound receiver  
and Ceiling Speaker

## INSPIRED BY THE SECRET PERFORMER IN YOU

Be it crooning alongside your favourite numbers or just jumping up on the bed and dancing to it like no one's watching – we know everyone secretly wants to do these. Our Bluetooth sound receiver and ceiling speaker helps you unlock the performer in you. Thanks to crystal clear audio that turns any room into a concert venue. Live the advantage of enjoying your musical side.

## INSPIRED BY YOUR LOVE FOR A GREAT STORY

We know how much you love your page-turners and even a quiet nap in between chapters. Which is why our Modular, Flexible and Dimmable Reading lamp is just perfect. Bright when you are lost in the story and easily dimmed when you want a bit of shuteye. Live the advantage of convenience with an ultra-modern design.

# INSPIRED BY YOUR ALWAYS-READY MANTRA OF LIVING

Be prepared – it's one of your favourite philosophies in life, isn't it? We anticipated it. Just as we anticipate any sudden emergency, power cuts or an impromptu adventure into the dark outdoors. Our removable emergency LED lamp is just the right thing you need to show you the way, when all other light fails. Live the advantage of ease.

## INSPIRED BY A TOUCH OF YOU

Touch switches in a unique Titane finish. Tested individually for several thousand operations. The promise of long life and low power consumption. High gloss finishing that facilitates easy cleaning. And in-built memory feature for electronic touch switches. When it comes to our touch switches we've kept in mind your needs and touched upon all of them! So, go ahead and live the advantage.

## INSPIRED BY YOUR NEED TO STANDOUT

Our Touch Switches bring the ease of convenience and the looks of outstanding design. Modern, sleek, minimal, we are inspired by your global tastes, to make your home as aesthetic as it gets.

Touch Universal LED dimmer

## INSPIRED BY YOUR BRIGHT LIFESTYLE

Our Touch Universal Dimmer for all types of dimmable loads, including LED, lets you decide whether you want a dimly lit ambience or a bright as day look

## INSPIRED BY YOUR MOMENTS BY THE WINDOW

There are moments that you love to draw the curtains apart, sit by the window and look outside as the world passes by. Yet, there are days when you want to shut out the world outside. Our touch curtain control switches are there for you, either way. Live the advantage of privacy or let the world enter through your windows.

## **COMMERCIAL/HOSPITALITY SOLUTIONS**

# INSPIRED BY YOUR PRESENCE AND YOUR ABSENCE!

Be it a hotel lobby, corridor or a verandah in your home – wouldn't it be nice if the lights knew that you are on your way and turn themselves on, according to your presence? We thought you might like it. Our engineers therefore have designed the Infrared Sensor Switch which senses your presence or absence and accordingly switches on or off the lights. Saves power and the trouble too! Live the advantage of smartness.

Preterminated  
HDMI socket

# INSPIRED BY YOUR NEED FOR TECHNOLOGY

Plug in any of your favourite devices that run on HDMI, using our preterminated HDMI Socket. The ease of installation of this socket, means everyone can easily live the advantage of entertainment, technology and convenience.

## INSPIRED BY YOUR LOVE FOR LATE NIGHTS

Be it a cosy room in a resort or a long corridor in a swanky hotel, we know the need for the softest yet warmest guiding lights that show the way, even in the dark. Hence, we've come up with a Skirting Light that is just perfect in terms of illumination, while not disturbing everyone around. Live the advantage of lights in the dark.

**THE WONDER OF  
IOT IN HOMES**

# INSPIRED BY YOUR INTELLIGENCE THAT LIGHTS UP ROOMS

When you walk into rooms, they say you light it up with your conversations. Taking our cue and using the intelligence of IoT technology we've created central control of switches, shutters and socket, individual and group based. Live the advantage of smart technology.

Curtain/Roller Blind Wireless Switch

# INSPIRED BY THE SUN PLAYING HIDE AND SEEK WITH YOU

We know sometimes you prefer the sunrays bathing you and sometimes you want to shut them out. Our IoT Enabled Curtain/ Roller Blind Wireless Switch will do the job. Live the advantage of smart comforts.

## INSPIRED BY YOUR JET-SETTING LIFE

Today you are home and tomorrow you are travelling – a holiday or perhaps a work-trip. We know such jetsetters need some intelligent help at home. Our IoT enabled Home/Away Wireless Master Switch lets you switch on or off multiple things like all lights, all shutters or all sockets by just pressing one switch at home or by tapping the app on your phone, even when you are not home! Live the advantage of technology that keeps up with you.

Wake Up/Sleep Wireless Scenario Switch

## INSPIRED BY YOUR GOOD NIGHT'S SLEEP

You value the quality of your sleep. And we value the experience that starts before you drift off and the one that awaits when you wake up. Our IoT Enabled Wake up/Sleep wireless scenario switch lets you manage, control and set these scenarios. An intelligent treatment awaits every time you want to sleep or wake up. Live the advantage, every waking hour or even in your dreams!

Wireless Switch

# INSPIRED BY TOUCH, SWIPE AND YOUR VOICE.

Be it controlling operations of lights or curtains remotely or controlling power outlets or viewing energy consumption details – we've got your back in multiple ways that you love. Control functions via voice commands used in combination with multiple ways. You can still use it in the traditional way via switches on wall. Also even by simply swiping on the Home+Control Smartphone app by Legrand.

Home + Control App

# INSPIRED BY YOUR LOVE FOR THE HIGHEST STANDARDS

When it comes to certifications, we've left no stone unturned. The best of national and international compliances and certifications have been met in our several products. Legrand is proud to be a part of the prestigious PEP EcoPassport\* program, making sustainability quotient top notch. After all we must keep up with your high standards, right? Live the advantage of the very best standards.

Lyncus™  
Change to today

# TIME TO CHANGE TO TODAY

LIKE YOUR HOMES ALREADY HAVE

 **legrand**®  
LIVE THE ADVANTAGE

LYNCUS,  
THE NEW RANGE  
FROM  
LEGRAND

Our homes are changing at a speed like never before. What's cutting edge today is outdated tomorrow. In this landscape, Legrand is developing ever new technologies and bringing them to consumers.

In labs across the world, Legrand is always busy researching and developing new products in electrical and digital building infrastructure. More than 5% of our budgets are dedicated to this goal. And because our customers need products that go beyond technology, that bring design value as well, our focus is on both. We call it Designeering.

Our new Lyncus range is a culmination of all these values. The sleek minimalist look is perfectly in sync with the technology that sets this range apart. Easy to install, easy to use and easy on the eyes. In other words, welcome to a range tailor made for your modern home.

# CLEAN AND MINIMAL WITH JUST A TOUCH OF QUIRK

Today's homes need a range that mirrors their look. A modern sleek look with clean lines. A look that is chic and futuristic. Our new Lyncus range brings this aesthetic to your home, but with a subtle touch that adds character to every room.

# TOUCH THE PERFECTION

Touch switches  
that are sensitive  
to your every whim

NO CLICKS, NO CLACKS,  
JUST SMOOTH OPERATING.

Touch Fan Regulator

Touch Bell Push

Touch Switch

Universal Dimmer for all types  
of dimmable loads including LED

Universal Touch Dimmer

Combi Twin USB

Twin USB Charger  
for both type A  
and type C USBs

Wireless Induction Charger\*

# SAY GOODBYE TO PLUGS

# SAY GOODBYE TO WIRES

Today's homes have so many more gadgets per person than before. That's why you'll find these USB chargers very convenient. Now you can charge 3 gadgets at the same time.

Say hello to our new wireless Induction Charger. All you have to do is slip your phone in and charging begins automatically. It also has a built-in USB port. So you can charge other devices like your tablet or your Bluetooth speaker while charging your phone. No more tangled wires and lost plugs!

\*Only charges compatible phones with induction receiver technology

THE SPEAKER CAN BE EMBEDDED IN THE CEILING AND RESPONDS TO THE BLUETOOTH RECEIVER.

Ceiling Loud Speaker

Reading Light

# BLUETOOTH IS THE NEW MANTRA

The bluetooth receiver connects your phone or your laptop to the speaker so you can play music from anywhere in your home.

## SHINE ON ME

Sleek, hardy, ready to turn smoothly in any direction of your choice.

Bluetooth Receiver

Remote Control Unit

**THIS REMOTE LETS YOU CONTROL 4 LIGHTS  
AND 1 FAN WITHOUT TAKING ANY TROUBLE.**

**DON'T  
GET UP**

Any four lights can be controlled with this remote, one at a time or all together.

One fan can be switched on or off and its speed can be increased or decreased.

Our new rockers come with a signature pinch that amplifies the aesthetics of your home - that are a cut above the rest, quite literally.

**ROCKERS WITH A TWIST**

THE RANGE  
YOUR BEST GIZMOS  
DESERVE.

# COLOUR ME CHIC

Lyncus plates come  
in 6 trendy shades,  
perfect for modern  
homes and tastes.

**Myrius™**  
More is on.

 **legrand®**  
— ■ IDEAS THAT CLICK

Be it a couple of extra zeroes to  
a pay cheque or one more holiday to the list.  
Be it one more pair of shoes  
to the collection or just requesting for  
one more song at a party. It's natural  
for humans to always expect something more.

At Legrand, we always stand true to our  
philosophy of 'Listen, Design, Make and  
Support'. It is this thinking that helps us  
believe that the more one gets the better it is.  
Which is why, Legrand's Myrius range of  
wiring devices has a lot more to offer.

## More Aesthetics

Flat, sleek and smooth, Myrius is the preferred choice to give every wall an artistic touch. It was conceived with curved edges that give it a distinct and appealing look. Moreover, its minimalistic design makes it look absolutely stunning and desirable. But what makes Myrius truly beautiful is a classic black and white shade that offers an aura of comfort and timelessness.

## Black Beauty

A mystic black shade with a grainy matte finish truly complements any decor.

## Snowy White

Its gleaming white shade and a perfect glossy finish adds to a soothing decor.

### NEW RANGE OF PLATES

This gleaming, pristine, white piece of beauty with curved edges adds a touch of class to any decor that it's a part of.

This black beauty with a matte finish has curvy edges with a flat sleek body. The perfect finishing touch to any decor.

## More Simple

Myrius was crafted with one thing in mind, to make your life much easier. That is why, we've incorporated the world's best technology and the finest engineering into it. Now just because it consists of complex technology doesn't mean that it is complicated to operate. We've carefully designed a simple user-interface on the outer side to make it convenient and easy to use.

# Myrius™

## More Durable

Myrius doesn't just look beautiful and attractive.

We have taken proper care to ensure it is of the highest quality. It consists of the finest materials that have been thoroughly tested for durability and endurance.

Moreover, the ISI marking on it guarantees a long-lasting performance.

## More Value

Myrius's flawless designs and superior technology are well-suited for every home. It thus sets new standards of convenience and comfort, and that too in the most affordable way. With many more functions and attractive features, Myrius gives you more value for your money.

# Myrius™

## More Delight

Myrius is more than mere wiring devices. It brings along aesthetics in design, simplicity and durability in all its products. What's more? It also suits every pocket, making it the most preferred choice.

# More delight

## Remote control switch for light and fan

- Can control 4 lights & 1 fan
- 10 different speed options for fan
- Night lamp on product panel with manual operation option for all functions

## TV/SAT/FM socket

- 3 in 1 socket for TV, SAT and FM
- 2 module unit with 3 inputs

## VSP – Voltage Surge protectors

- Protects electrical devices like laptops, computers, printers and other office equipments from voltage surge
- Blends very well with the modular range of wiring devices
- Convenient to fit only where it is required, close to the primary sockets

## Motor Starter

- For AC's / Geysers etc
- Complete protection against overload
- Aesthetically appealing Motor Starters

### Dimmer

- Creates the perfect ambience
- For the first time dims CFLs too
- Dims halogen lamps

### Fan regulator

- In-built safety capacitor that prevents from catching fire
- ISI marked fan regulator

### Skirting light

- Fitted into the walls at skirting level
- Provides a dim lighting
- Creates a path light during night
- Uses LEDs that saves energy

### Motion sensor

- Infrared detectors that detect human movements
- Programmed to automatically switch the device on and switch off when not in use, thus, saves energy

more  
delight

## More acceptance, always and everywhere.

Myrius range of wiring accessories is a classic creation to increase the customer's comfort and improve the work environment. This wide range of innovative products offers solutions for residential, commercial and hospitality projects, thus, making it a range that caters to everyone's needs.

### Guarantee

- The Company at its discretion, will replace products if they have any manufacturing defect within 10 years for switches (without neon lamp) and power sockets. For all other Myrius™ wiring accessories the guarantee will be 2 years.
- The above guarantee is applicable when the devices are used in Legrand metal flush boxes. Other wise the guarantee period will be reduced by 50%.
- The guarantee is only applicable when the products are installed as per the Company's instructions and not tampered in any manner.
- The guarantee states the Company's entire liability. It does not extend to cover consequential loss or damage or installation costs arising from defective products.

ARTEOR™ | FLOW OF ENERGIES

 legrand®

## FLOW OF ENERGIES

Imagine that your home comes to life. That the walls, throughout the home, are suddenly gifted with intelligence, and watch over your daily well-being. Then imagine that you can control everything with a simple gesture, in a series of actions orchestrated exactly according to your wishes... This impetus, capable of bringing life to your living space, is the flow of energies provided by Legrand technology. Quite simply a new way of seeing the world, which we invite you to share.

## **PIERRE-YVES PANIS AND DENYS TOULEMONDE**

ARE DESIGNERS AT LEGRAND.

THEY ARE HERE TO TELL US ABOUT THE GENESIS OF THE NEW ARTEOR™ INTERNATIONAL LINE.

### **What is the designer's role in creating a project such as Arteor™?**

Whatever their field of activity, designers must find the optimum balance between function and form. This requires them to innovate constantly, even if that means changing habits and presuppositions.

As for Industrial Design, it is now at the core of a strategic issue: technological innovation. It forms the vital link between increasingly sophisticated electronic components, ever more elaborate functionalities, and a user who expects increasingly simple access solutions. Today, a product must be efficient, intuitive and elegant. And even sometimes it becomes status enhancing. The factors of differentiation and perceived quality have in fact become essential choice criteria, both for consumers and for specifiers.

Our role is therefore to be at the forefront by capturing the current climate and anticipating trends. That's why Legrand Design keeps a «creative watch» on society as a whole and on Architecture and Design in particular to identify trends. Each designer then interprets them with his or her own particular style.

In this intuitive and imaginative work, creativity and rationality combine to create the final product.

#### How did the Arteor™ project take shape?

Firstly, Arteor™ had to encompass all the technological know-how of Legrand. With several key elements to be included:

- A top-of-the-range positioning, ensuring Arteor™ has a status enhancing value.
- A simple, clean style, truly universal in order to be adapted to the different international markets.

***“Firstly, Arteor™ had to encompass all the technological know-how of Legrand.”***

Having chosen to refer to certain values of Asian culture, it seemed to us essential to develop this project in close cooperation with an Asian Industrial Design agency.

On a creative level, this partnership shows our willingness to increase intercultural and international exchanges as sources of inspiration and a first step towards a universal convergence.

It also confirms our willingness to coordinate talent and highlight the international dimension of our project. We believe this kind of synergy is the key to truly innovative proposals.

**In what way is the Arteor™ design innovative?**

From a formal point of view, Arteor™ innovates through its bevelled profile. By a visual effect, the object appears to float in space, weightless, bestowing unique elegance on the room.

Moreover, its lines echo those of high-tech objects increasingly found in interiors: flat screens, digital photo frames, and computer screens.

With Arteor™, wiring devices are perfectly in sync with new technologies.

***“With Arteor™, wiring devices are perfectly in sync with new technologies.”***

**What are the constraints encountered during a project of this scale?**

Paradoxically, the thousands of kilometres that separate our design studio and the Asian studio did not present an obstacle in the internet age. The geographical distance does not imply a «creative» distance and we found that we share values and sensibilities.

The challenge, in an international endeavour, is to adapt to the constraints of each country. These may be subjective: preferences, effects of fashion, habits... Other constraints we had to take into account were more tangible: the shape of the rocker plate or the standards and local uses. We needed to develop a concept to offer the range in different standards while maintaining aesthetic consistency.

#### **Why offer two versions: round and square shaped rocker plates?**

We think that the user needs to have this choice. We therefore designed a wider range where the options may be freely combined. The two basic and essential shapes – the circle and the square – ensure the multiple functions of modern wiring devices are harmoniously integrated.

Furthermore, each version has its own advantages:

We have therefore rethought the traditional square rocker plate so as to equip it with better ergonomics: a slightly concave surface facilitates the control.

The difference is also visually noticeable and creates harmonious variations on surface composition.

The circle theme is innovative for this type of product. It is indeed the result of collective influences because the European and Asian teams had the idea simultaneously, even before they confronted their concepts.

Proof that this audacious solution was ideally adapted to the aspirations of users throughout the world.

The newness is not only aesthetic: the ergonomics have also been improved by this circle theme which allows the hand to move in a more natural, intuitive way.

It is surely not by mere chance that the circle is a significant trend in numerous everyday high-tech products.

***“The round shape ensures the functions of modern wiring devices are harmoniously integrated.”***

# Materials

TATTOO

MIRROR

GRAPHIC

**«Mirror Black»:**

*A finish that harmonises with the world of flat screens and emphasises the «high-tech» nature of the collection. Offered for Touch products, it ensures the aesthetic unity between classic wiring devices and advanced systems from the Arteor™ range.*

BRUSHED METAL

LEATHER

SIGNATURE

**How have you obtained these effects of original materials?**

The Arteor™ range contains a very high level of detail.

Particular attention is therefore paid to the selection and quality of materials, from the most refined to the most innovative. Among the exclusive finishes offered, there is Woven Metal, Mirror Red and Galuchat (shagreen or fish skin).

In this endeavour, the Design team relies on the expertise of its specialist in materials and finishes.

It is always seeking new trends through its constant observation of

external markets in the most diverse sectors: decoration, electronics, cars, lighting, furniture...

Also, the experience of different cultures acquired during trips abroad, visits to trade fairs and material libraries, enables us to offer the user diversity of choice, and extensive adaptability in terms of decoration and lifestyle.

Lastly, a manufacturer's expertise is also the art

of using and producing materials with consistent quality.

***“Particular attention  
is therefore paid to  
the selection and quality  
of materials.”***

*“The Arteor™ functions and applications can be customized at will. Imagination is the only limit.”*

### **Arteor™ functions can be customized. Why have you provided this choice?**

Nowadays there is a real convergence of technologies, together with a high requirement for customization.

Today's objects of value are often by nature not definitive, in the sense of adaptability: from the computer to the mobile telephone or the car, all are intended to adapt exactly to the needs of each person.

Arteor™ functions can be customized because users create their own living scenarios, to be set according to their preferences: cinema ambience or an evening with friends,

subdued lighting with automatic closing of the curtains and adjustment of the thermostat... Imagination is the only limit.

The system then becomes the home's brain.

The creation of our icons is part of this philosophy. They have been specially designed to improve clarity and be immediately legible, in order to be highly user-friendly.

In contrast to a word, an icon is easily identifiable by the majority of people and enables a function to be concentrated in a gesture. It is the ultimate expression of technological convergence.

## ENVIRONMENT

Obviously, today's environmental challenges directly impact the design and development of Arteor™. Blue LEDs – one of the characteristic features of the range – are not mere design elements: The use of LEDs for all illuminated functions allows for the optimisation of energy consumption. So do a variety of options for programming and automation. And with its new generation of dimmers which are perfectly suited for controlling energy-efficient light sources such as compact fluorescent lamps and even LEDs, Arteor™ allows to reconcile enhanced comfort with a responsible lifestyle.

***“People’s lifestyles are constantly evolving”***

**Is Arteor™ an appropriate answer by Legrand in today’s complex design environment?**

Yes, we believe that the concept meets a real demand from the targeted public.

With today’s nomadism and the many interactions between cultures, people’s lifestyles are constantly evolving. Consumers are overwhelmed by a multitude of influences and perspectives every day, through internet or when travelling. This convergence of information sources and the virtual suppression of distances make them more likely to accept differences and build up their own values.

All of this gives Legrand Design a greater creative freedom, which the team expressed through a minimalist style in order to guarantee the timeless nature of the Arteor™ range, intended to live and evolve over the long term.

This corresponds to a real expectation of simplicity and authenticity. It is up to us, the designers, manufacturers and specifiers, to meet this demand in an appropriate way.

# Touch

## TOUCH DIMMER LIGHT INTENSITY SELECTOR

From pure brilliance to the most subdued effect, choose your room's ambience with a gentle touch of the hand. With its minimalist design and its elegant sensitive surface, the Touch Dimmer reinvents the art of controlling light.

Customize

## SCENARIO SWITCH ACTIVATOR OF SCENARIOS

With the Scenario Switch, you are offered a new way of setting the scene for your everyday life. With a simple press, you can activate real living scenarios that can be customized to control with a simple touch and simultaneously different functions in the room (light, heating, shutter, etc), programme a cosy ambience and watch television, or start the hi-fi system and lights as soon as you arrive... Technology yields to your wishes.

Visualize

## 1.2" TOUCH SCREEN MULTIFUNCTION INTERFACE

The functionalities of the Scenario Switch are made more precise by an integrated control screen. Adjusting the temperature to the nearest degree – or choosing your favourite radio station – has never been so easy. All clearly expressed with the 1.2" Touch Screen.

# Control

### **3.5" TOUCH SCREEN CONTROL CENTRE**

With the 3.5" Touch Screen, you can control all your systems in the home: lighting, roller shutters, sound system or alarm system. Now, custom-made living scenarios spread throughout the home and can be programmed according to your tastes and habits. The Touch Screen also allows you to download your playlist via its IP entry, or turn up the sound while dimming down the spotlights. It offers numerous possibilities with a particularly intuitive navigation system, in the form of icons.

# Supervise

## 10" MULTIMEDIA TOUCH SCREEN VIDEO DOOR ENTRY SYSTEM AND CONTROL CENTRE

When high-tech home automation brings life to the convergence of all the intelligent systems in the home... This control center adds video door entry and video surveillance to the home control functions - using the same intuitive navigation system as the 3.5" Touch screen. On its wide screen and depending on the number of cameras, controlling the exterior and interior of the home or talking with visitors has never been so easy. Also, its multimedia design provides access to multiple online services: radio, playlists, weather, traffic news, and even video broadcasts.

# Sublimate

## SWITCH INTERIOR DESIGN

While Arteor™ innovates through its bevelled profile, it also offers many exclusive options: round rocker plate, colours and new materials such as Galuchat (shagreen or fish leather) or Woven Metal... resulting in numerous combinations and a perfectly harmonious integration into your interior.

# Offices

## LIGHT MOOD MANAGER

### CREATOR OF LIGHT AMBIENCE WITH TOUCH SCREEN

Conference, projection, work meeting or showroom... With the Light Mood Manager you can adapt the lighting to the use of your space: area or centralized control, hourly programming and lighting scenarios provide the comfort and prestige that gives your company the edge.

# Hotels

## BEDSIDE UNIT

### TOUCH INTERFACE FOR HOTEL ROOMS

That comfortable feeling of being “at home” even when you’re far away comes from a multitude of small details. With this unit at their bedside, travellers will enjoy a perfect rest: the blinds, curtains and lighting can all be controlled remotely without having to get up. And programmable scenarios can be used to adapt the atmosphere to suit their mood.

# Magnify

NEUTRAL

TATTOO

MIRROR

GRAPHIC

From the elegant simplicity of the Neutral finishes to the extreme refinement of the Signature line, a collection rich in choice and fine materials. To make each room truly unique.

### 4-SCENARIO MICROPUSH

4-scenario micropush control (BUS version)

4-scenario micropush switch (radio version)

### 4-SCENARIO TOUCH

4-scenario touch control (BUS version)

Touch plate scenario controller (radio version)

Advanced Home Automation functionalities to create four living scenarios. Lighting, blinds, heating, hi-fi system... Controlling several functions with a single touch soon becomes second nature. Available in Micropush, touch plate or touch screen versions.

## 1.2" TOUCH SCREEN

1.2" Touch screen in "sound distribution" mode

1.2" Touch screen in "temperature management" mode

## HOME AUTOMATION

### 3.5» Touch screen:

**Control centre**  
Enables the creation of scenarios for every room:  
lighting, shutters, sound system,  
temperature regulation, alarm system, etc.  
Touch technology controls and easy navigation  
using icons

### Video display

Hands-free video door entry and home control station  
Colour video screen and integrated microphone for  
welcoming visitors

From a single point control all the settings and multimedia functions in your home, set the lighting in the garden, control the gate... With the Home Automation screens, the interior and exterior become one.

#### 10» Multimedia touchscreen

##### Video door entry system and control centre

A control centre for home control functions, video door entry and video surveillance functions via a control screen linked to indoor and outdoor cameras, and broadcasting of multimedia contents (web, video, etc.)

# Modernize

## ALL-LOAD SWITCH

Micropush 2-way switch with LED locator

## SENSITIVE SWITCH

Control light sources by simply passing the hand in front of it

## UNIVERSAL DIMMER

Universal dimmer - suitable for compact fluorescent lamps

## MULTI-OUTPUT DIMMER

Micropush dimmer for 2 circuits

Comfort takes on another dimension with these switches that enable you to dim, control and connect in a modern way: sensitive switch, electronic room thermostat... New ways to reconcile everyday comfort with a responsible lifestyle.

### ELECTRONIC ROOM THERMOSTAT

Active temperature management room by room

### SKIRTING LIGHT WITH LED

Installed near obstacles for greater safety

### TV/R/SAT SOCKET

For TV connection

### TELEPHONE SOCKET

For telephone connection

Offices and collective spaces require specific solutions and maximum flexibility: lighting adapted to each situation (meetings, conference, etc.), access security, comprehensive multimedia connections. The Arteor™ range meets all these expectations with perfect adaptability.

## LIGHTING ENVIRONMENT CONTROLLER

Control 3 lighting circuits and create the right lighting environment especially in conference and meeting rooms

### AUTOMATIC SWITCH

Switch on light only when needed - and switch it off automatically

### SKIRTING LIGHT WITH DETECTOR

Installed near obstacles it automatically provides more safety

### FINGERPRINT READER

The solution wherever an extra-high level of security is required

### RJ 45 SOCKET

High-performance access to data

### WI-FI ACCESS POINT

Wireless access to communication networks and the internet. For maximum mobility

## EXTERNAL UNIT

Allows the staff to see the room status at a glance

## INTERNAL UNIT

Allows customers to select the desired setting: «Don't disturb» or «Make up room»

## BEDSIDE UNIT

The bedside unit provides everything travellers need to control blinds, curtains and lighting from a single point without having to get up

From the hotel room door to the bedside table, Arteor™ provides all the solutions for the specific needs of today's hotel industry. Comfort that extends to the hotel's communal areas, whether dedicated to relaxation or work.

## DATA AND MULTIMEDIA SOCKETS

Data and multimedia sockets provide easy access to the internet and allow to connect electronic devices such as MP3, digital cameras, portable dvd or laptops to the hotel TV system

## SOFT LIGHT DIFFUSER

Its soft, subdued light helps you to find your way in the dark but will not disturb your sleep

## MULTISTANDARD SOCKET

Enhances convenience for international customers as it allows connection without the use of an adaptor

# Connect

## RJ 45

Data socket

## WI-FI ACCESS POINT WITH RJ 45 SOCKET

For wireless access to the internet and communication networks

## USB

For connection of USB devices (e.g. scanner-printer, external hard-disk). Brings connections closer to the user

## TV/R/SAT

For TV connection

New technologies, new connections. Arteor™ adapts to all the digital developments in order to guarantee complete reliability. Data sockets, Wi-Fi access points, TV, audio and video sockets... At your home or office, easily connect computers, TVs, MP3s, audio and video equipment.

### YUV

For analog high definition video connection of a DVD drive, plasma screen, video projector...

### 3 x FEMALE RCA

For the composite video and stereo audio connection of a DVD drive, camera, video recorder, video conference equipment...

### HDMI

For digital high definition video and audio connection of a PC monitor, plasma screen, video projector

### HD 15 / JACK

For analog video and audio stereo connection of a PC monitor to a plasma screen or video projector

# Adapt

SOUTH AFRICA

Designed to adapt to the majority of international standards, Arteor™ is the solution for all your projects, wherever they are in the world and whatever their destination: home, work, hotel...

### EURO/US/CHINA

### INDIA

### MIXED

Euro/US, Italy, French and German standard

# SPACE WRITING

Tested by photographers as early as the first half of the 20<sup>th</sup> century, the purpose of Light Calligraphy is to capture the ephemeral.

Certain famous names from Contemporary Art have tried it, equipped with a torch...

Today, many refer to this movement inspired by graffiti and have developed their own techniques, based on a very specific set of gestures and complete mastery of the photographic processes. The flows presented in this piece are the work of the photographer Guillaume Béguin, who Legrand thanks for his contribution.

We would also like to thank the following for their valuable contribution:

LIGNE ROSET, LES ANNEES LUMIERES, SENTOU (Coffee table / Design Isamu NOGUCHI), EDIFICE («Turner» Candlesticks / Design Xavier Lust, «Phoenix» Coffee table / Design Patricia Urquiola, «Brasilia» Coffee table / Design F. & H. Campana, «Diderot I» Vase / Design Mendini, «Koishi» Pouffe / Design Naoto Fukasawa), SILVERA (TATINO Pouffe, TECTONA Lamp, FEEL Chair, Puppies), EDRA («Flap» Sofa), MANDARINA DUCK (For the luggage), LA MAISON DE L'ELEPHANT («Gold Vase»), PAINTINGS (Laurent CAIROLI, FKDL - Franck DUVAL, Jean-Luc VALLEGAS).
