Where Art Meets Impression

Revolutionize your daily lives with our range of beautifully crafted switches. Our range of customized switches and sockets come in a complete spectrum of attractive colours, patterns and finishes that seamlessly adapts to your lifestyle. Add a touch of elegance, style and grandeur to your home interiors and reflect your panache with these home lighting solutions that are designed around you.

It's also
a Switch

AvatarOn

Express Your Personality

The Instinctual Decorating style is gaining momentum as individuals are being confident about their personal tastes and sensibilities. You can embrace your personality with this design trend by adapting and exploring your individuality with the use of more vibrant colors. The AvatarOn range of switches is an easy-to-change and highly customizable product that adds to the aesthetic design of instinctual interiors that are designed around you.

Irresistibly
Beautiful

Unica

Absorb And Reflect The Nature

Incorporate elements of nature with the Biophilic design trends by adding natural lighting and ventilation to your interiors. The use of natural materials and textures allows you to combine a sense of both, complexity and order, just like the Unica range of switches that enables nature to seamlessly enter your homes. These switches bring in the roughness of minerals and the beauty of crystal transparency giving you a nurturing space that is designed around you.

As Stylish
as your World

Clipsal X

Bring In A World Of Artistic Illusions

A painted ceiling is a trend that enables you to capture your personality in the most distinctive manner. The painted ceiling lends an extraordinary vibe to your interior by adding a visual depth to your living space. You can use this to add a striking balance between contrast and continuity just like the ClipsalX range of switches. These ceilings make your space look larger to reflect a bespoke interior that is designed around you.

The Ultimate Switch

The Ultimate Switch

Revolutionize Your Interiors

Take in the mid-century modern designs and be a part of the Memphis movement by focusing your interiors on primary colours and graphic shapes. This trend includes the use of curved sofas and tub chairs and it turns away from the traditional rigidity of interior design. The ULTI range, with its round dolly and sleek design, compliments this trend as it blends two contrasting geometries for unprecedented freshness designed around you.

Horizontal Thinking

Style And Functionality Brought To Life

Bring out your adventurous spirit with Bold Black interiors while adding drama and character to your space. The black interiors evoke an indulgent high-end experience and the NEO range of switches keeps this sense of luxury uniform by extending its appeal in avant garde designs. It remains unobtrusive in your space and yet emits a soft luminescent light during the night to strike a balance between style and functionality that is designed around you.

Revolutionary
Full Flat Switch

Decipher Your Roots With Aesthetic Designs

Sustainable architecture and statement handmade pieces are a way to stay in touch with the Earth and your roots. Incorporate sustainability and bring in a tremendous impact on how you interact with your spaces. ZenCelo makes this transition smooth with its full-flat design that is eco-friendly and the switch dolly's unique mechanism allows it to stay stationary, occupying a much smaller footprint. Switch into the future of contemporary décor that is designed around you.

Switch to the
Extra-Ordinary

LIVIA

Radiate Your Panache From Every Corner

This upcoming design trend which is 90% white and 10% colour is certain to reflect your personality in the boldest way possible. The overpowering white background allows you to make a bold statement by adding minimalistic hues, and the Livia range with its classic finish sits snugly in the background to ensure your interiors unfold confidence that is designed around you.

Switches with
Satin Finish

opale

When Beauty And Splendour Speak

Incorporate bold colours such as deep green, gunmetal blue, emerald or mustard to make your environment calming and cozy. These elegant shades are truly brought to life with Opale, a tailor-made range of satin switches and plates. Spruce up your interiors with Opale, which gives you the freedom to choose the hues that radiate your personality as they are designed around you.

Suits
Every
Mood

WISER

Layer Your Interiors With Brilliance

The rich jewel tones bring in elements of drama and mystery to your interiors. The use of bold indigo and dark teal give you an edge in elegance and layering your interiors with these hues add to the personality of your sophisticated taste. The Wiser Odace™ LIGHTING adds to this charm by including a shade of brilliance to portray your mood. The Bluetooth-enabled system with intuitive design will take you by surprise with its personalised controls that are designed around you.

Timeless Designs With A Mark Of Elegance

Our switches suit a range of interior and exterior designs and are capable of withstanding extreme conditions, convenience, connectivity, control and safety. We, at Schneider Electric, design feature-packed products that are energy-efficient, safe and easy-to-use to ensure that the innovative solutions are designed around you.

Switches with LED Locator

High-quality design that makes a difference

Impress your customers with our little touches that can make a big impact on the quality of their guests' experience.

AvatarOn wiring devices are slim and elegant. Developed with a patented "Slim Rocker, Sure Click (SS)" mechanism that redefines switch aesthetics, the range's signature, frameless unitary design can match any hotel style.

It also features an overall slim profile and that creates a softer press, flutter-free switching experience, offering your customers durability and reliability.

Designed for ease of personalization, AvatarOn switches have innovative, **customizable covers** that can be removed and mounted with just one hand.

A **release indicator** makes it easy to fit the cover into place
